Blacksheep is a fast-growing international science and technology company – a great place to develop your career in Vietnam. Focusing on development of world leading products for high growth markets, the company designs, develops and manufactures truly innovative products in Vietnam. Our projects in Vietnam range from high power electric motorbikes to medical machines, and our products are used for many scientific applications including biology, chemistry, biotech research, material sciences and scientific discovery and all need to follow ISO standards appropriate for the resulting products.

Our objective is the intention of pioneering the development of Vietnamese designed, developed, manufactured, and marketed cutting edge products with world leading performance and quality to be sold in global markets. We are looking for highly energetic men and women to join us to drive Vietnamese engineered products to the world.

Main tasks:

Your role will be responsible for the entire process of defining requirements, visualising, and creating graphics including illustrations, logos, layouts, banners and more. You'll be the one to shape the visual aspects to capture the attention of audience and communicate the right message.

Your typical duties include but not limited to:

- Develop a comprehensive understanding of project needs
- Collaborate with project manager to understand requirements and business objectives as they relate to the designs
- Propose concepts/ ideas base on collected requirements
- Follow and enrich the brand guidelines to ensure quality and consistency across all touch-points
- Develop mock-ups, prototypes that clearly illustrate how the results look like
- Create original graphic designs (e.g., images, sketches, tables, etc)

Required skills and capabilities:

- Education qualification: Background in Art, Design, or related field
- 2+ years of experience in graphic design, illustrations, branding, advertising (experience in a design agency is preferred)
- Being up-to-date with industry leading software and technologies (Illustrator, Photoshop, InDesign, etc)
- Having creative intuition, great sense in colours and visual language and a keen eye for details
- Good analytical and problem-solving skills

- Strong organisation skills to manage tasks within the constraints of timelines
- Excellent communication skills
- Ability to work efficiently within a team as well as independently without supervision
- Proficiency in English
- Experience in UI/UX is a plus
- Willingness to accept challenges and learn new things

Please note: Applicants will be required to submit a detailed portfolio, outlining their experience and previous works.

Benefits:

- Opportunity to work in an international, friendly, creative, and active environment.
- Opportunity to approach most advanced technology in the world.
