Product Design Engineer

Full time, 37.5 hours per week

Location: Hanoi, Vietnam

Report to: Project Manager

Blacksheep is a fast-growing international science and technology company – a great place to develop your career in Vietnam. Focusing on development of world leading products for high growth markets, the company designs, develops and manufactures truly innovative products in Vietnam. Our projects in Vietnam range from high power electric motorbikes to medical machines, and our products are used for many scientific applications including biology, chemistry, biotech research, material sciences and scientific discovery and all need to follow ISO standards appropriate for the resulting products.

Our objective is the intention of pioneering the development of Vietnamese designed, developed, manufactured, and marketed cutting edge products with world leading performance and quality to be sold in global markets. We are looking for highly energetic, men and women to join us to drive Vietnamese engineered products to the world.

We have a great environment within which to learn about cutting edge world leading methods of product and technology development. We have a focus on development of the team and their abilities and focus on people joining the team who want to learn and develop themselves.

Duties includes but are not limited to:

- Research who will use the product and the various ways it might be used
- Sketch out ideas or create blueprints
- Use computer software to develop virtual models of different designs
- Examine materials and production costs to determine manufacturing requirements
- Involve in prototyping and testing activities
- Work with other engineers and specialists to evaluate whether the design concepts will fill the need at a reasonable cost
- Evaluate product safety, appearance, and function to determine if a design is practical

Required skills and capabilities:

- Excellent computer skills including computer-aided design and drafting and three-dimensional modelling
- Excellent problem-solving skills
- Artistic ability
- Creativity
- Mechanical skills (industrial designers)
- Advanced English and Vietnamese communication skills, including oral and written
- Ability to work in a well-organised way
- Ability to work individually and as part of a team
- Result – oriented attitude
- Pro-active and learn new things quickly, willing to take challenges

Benefits:

- 20 casual leave days/year
- Private health insurance
- Competitive salary
- Opportunity to work in an international, friendly, creative and active environment
- Approach to most advanced technology in the world
- Opportunity to collaborate with world leading engineers

If you would like to apply for this position, please email your covering letter addressing each of the job requirements and CV to:

admin@blacksheeppower.com the attention of **Ms Giang Nguyen, Operations Director**

We are an equal opportunities employer and we would encourage woman to apply for the engineering job.

We look forward to hearing from you!
