Software Engineer

Full time, 37.5 hours per week

Location: Hanoi, Vietnam

Blacksheep is a fast-growing international science and technology company – a great place to develop your career in Vietnam. Focusing on development of world leading products for high growth markets, the company designs, develops and manufactures truly innovative products in Vietnam. Our projects in Vietnam range from high power electric motorbikes to medical machines, and our products are used for many scientific applications including biology, chemistry, biotech research, material sciences and scientific discovery and all need to follow ISO standards appropriate for the resulting products.

Our objective is the intention of pioneering the development of Vietnamese designed, developed, manufactured, and marketed cutting edge products with world leading performance and quality to be sold in global markets. We are looking for highly energetic people to join us to drive Vietnamese engineered products to the world.

We have a great environment within which to learn about cutting edge world leading methods of product and technology development. We have a focus on development of the team and their abilities and focus on people joining the team who want to learn and develop themselves.

We are looking for an engineer who has both an extensive background in software development and a strong understanding of hardware integration. Details are as follows:

Duties includes but are not limited to:

- Working within a multi-disciplinary environment with software, mechanical and manufacturing engineers
- Define, implement, and promote best practice in software engineering
- Software development for desktop applications
- Embedded code development for hardware
- Creating and maintaining documentation
- Code reviewing

Required skills and capabilities:

- 2+ years' experience in professional software development, ideally in a small team
- Software development experience in C#
 - Desirable experience in Java, C++
- Experience developing both desktop and embedded applications
- Experience working in a test driven development environment
- Experience working across the full Software Development Lifecycle
- Working within an Agile management framework
- Good verbal and written communication skills
- Ability to work in a well-organized way
- Ability to work individually and as part of a team
- Result – oriented attitude
- Pro-active and learn new things quickly, willing to take challenges

Benefit:

- 20 casual leave days/year
- Private health insurance

- Opportunity to work in an international, friendly, creative and active environment
- Approach to most advanced technology in the world
- Opportunity to collaborate with world leading engineers
- Competitive salary and benefit package

The role is based in Hanoi. You will be rewarded with a very competitive salary, alongside a benefit package.

If you would like to apply for this position, please email your covering letter addressing each of the job requirements and CV to:

admin@blacksheepower.com the attention of Ms Giang Nguyen, Operations Director

We are an equal opportunities employer and we would encourage woman to apply for the engineering job.

We look forward to hearing from you!
