

Head of Science

Location: Royston, UK.

Report to: CEO

Blacksheep is a fast-growing international science and technology company - a great place to develop your career in Vietnam. Focusing on development of world leading products for high growth markets, the company designs, develops and manufactures truly innovative products in Vietnam. Our projects in Vietnam range from high power electric motorbikes to medical machines, and our products are used for many scientific applications including biology, chemistry, biotech research, material sciences and scientific discovery and all need to follow ISO standards appropriate for the resulting products.

Our objective is the intention of pioneering the development of Vietnamese designed, developed, manufactured, and marketed cutting edge products with world leading performance and quality to be sold in global markets. We are looking for highly energetic, men and women to join us to drive Vietnamese engineered products to the world.

Main tasks:

The main responsibility of the Head of Science to lead the science team in their contribution to new Blacksheep products, delivery of fee-for-service science projects and other business opportunities.

Your typical duties include but not limited to:

- Providing support to the sales team, providing scientific insight to Blacksheep capabilities and expertise when discussing projects with potential customers.
- Identifying external business opportunities and partnerships for Blacksheep.
- Support the CEO to determine Blacksheep strategy.
- People management of the science department
- Run fee-for-service and internal product development projects
- Science department budget management
- Responsibility for delivery of fee-for-service scientific projects
 - Determine feasibility of projects
 - Assignment of resource
 - Responsible for delivery of projects on time and within budget
 - Meeting with external stake holders to update on project progress
- Identifying new products and services for Blacksheep to develop
 - Producing briefs for new products and services
 - Providing user perspective to product development
 - Leading applications development for new product
- Identify, develop and deliver opportunities for Blacksheep to partner with academics and other businesses on grant subsidized projects.

- Assist with the development of marketing materials

Required skills and capabilities:

- PhD in biological or chemical science
- At least 2 years experience in the biotechnology and life sciences tools industry, working to develop and deliver new tools and services
- Experience in managing a team
- Experience in project management and delivery
- Capable of setting up project management and delivery processes
- Good communication skills, with the ability to communicate effectively with a variety of stakeholders.

Benefit:

- Opportunity to work in an international, friendly, creative, and active environment.
- Opportunity to approach most advanced technology in the world.
